PROFILE SUMMARY

Aspiring Full Stack Developer and recent Computer Science graduate with a strong foundation in front-end and back-end web technologies, gained through academic coursework and self-driven projects. Skilled at building end-to-end web applications, from database design to responsive UI. Eager to apply strong problem-solving skills and a fast learning ability to contribute to a development team from day one.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL, Python, Java, Kotlin

Frontend: React, Redux, Tailwind CSS

Backend: Node.js, Express, REST APIs

Databases: MongoDB

DevOps & Tools: Git, Postman (or other free alternative like Bruno)

TRAINING / COURSE COMPLETED

Full Stack Development Course — Red and White (RW6 Branch)

January 2025

- Completed a hands-on Full Stack Development program covering front-end, back-end, and database technologies.
- Built and deployed sample web applications as part of the course curriculum, applying concepts learned in class.
- Gained practical exposure to the tools and workflow used in real-world full-stack projects.

EDUCATION

- Presently studying B.Sc (IT), semester III - After completion of 12th standard.

ABOUT ME

I am a fresher trying to build a carrier and

CERTIFICATIONS

- [Full Stack Development] — [Red and White Education Institution], [2025-26] → (Ongoing)

EXTRA INFORMATION

- Because of my assembly knowledge, I am able to understand any programming language with ease.
- After that, C++ allowed me to have better understanding on other high level programming language that supports OOPs
